Amplify Womxn 2022 Conference:

Storytelling for Social Justice

Storytelling for Social Justice

Often, facts are not enough to shift someone's perspective, but telling a compelling personal story can. The Amplify Conference will show womxn how to apply key concepts of narrative to their own personal stories and discuss how to use storytelling to advocate for social justice.

The Amplify conference will provide staff, students, and the local community with tools to their own personal storytelling, whether it be for istic, business, or healing.
