!@@#$-ING SYLLABUS

WHAT IS THIS CLASS ABOUT?

EXPLORING CONTEXT: Throughout this we will work to understand the contextual elements surrounding swear words. This includes etymological/historical understanding, relevant linguistic phenomena, psychological dimensions, legal/political impact, insight into the taboo of swear words, the effect of media, and lastly the philosophical/ethical aspects of these words. In understanding context surrounding these words, our goal will be to acquire a better sense of what these words mean, why we use them, and when to use them.

HOW SHOULD YOU CONDUCT YOURSELF?

BE RESPECTFUL: Maintaining a civilized public forum that deals with potentially offensive language is essential to keeping this class fun and informative. Nobody benefits from calling each other a @#$%-head or an ^&*-wipe to connote derogation, as it detracts from the purpose of the course. This being said, it’s essential that we refrain from using these words to inflict harm on others and to be aware of the meanings we imply.

DISCLAIMERS

KEEPING AN OPEN MIND: As is evident in the title, this course is about swear words, so expect there to be the verbalizing of swear words in class. We might be required to say these words out loud at times to foster interactive dynamic, and while compliance is not mandatory it is encouraged, so as to facilitate greater understanding and absorption of the material.

POLICIES TO CONSIDER

NO TECHNOLOGY: There is a strict no laptop/cellphone policy. We will not be having any readings or online assignments, hence there’s no need to bring either of these devices out. Please refrain from using any type of cellular devices during class as well. Those who are seen texting with recurring frequency will be asked to step outside. If you must take a call please take it outside of class in a discrete and polite fashion. We only have 50 minutes once per week, so be wary of your phone usage.

COURSE REQUIREMENTS

MANDATORY ATTENDANCE: Although there are required no readings, it is necessary that you come to class and participate. 100% attendance is mandatory to pass, and while this is only a 1 unit course we only have 10 classes total out of the 70+ days in the quarter, so missing our 50 minutes per week is unacceptable. If an emergency forces you to miss a class, contact me so we can work out an activity or assignment which will help you catch up with the content you missed.
