The Master of Science in Financial Technology and Analytics degree is a cohort STEM program for students who want to learn the quantitative skills required to analyze financial information, engineer financial products, identify risks and manage risks. The program is designed for students with or without a previous educational background in finance, but with a proclivity toward quantitative approaches to managerial issues.

Program Description
The Master of Science in Financial Technology and Analytics requires a minimum of 36 semester credit hours to complete. Students in the program must have a bachelor’s degree from an accredited institution in the United States, or its equivalent. An undergraduate business degree is not required; all undergraduate majors are welcome. New cohorts begin in the fall semester only.

In addition to the academic coursework, the Jindal School offers a number of resources to enhance the learning experience. A finance trading lab offers you the opportunity to train and get certified using the Bloomberg Terminal. The lab also has access to several databases, including Thomson Reuters Eikon, S&P Capital IQ, SDC Platinum, Morningstar Direct and Wharton Research Data Services. The program also offers a series of workshops that prepare students for the workplace. These resources allow students to improve their quantitative and qualitative skills in analyzing financial data and managing risk. Beyond the lab, JSOM’s Career Management Center staff helps students to find internships and jobs and hosts guest speakers and events.

Career Opportunities
Financial data analytics and risk management are becoming two of the hottest fields in finance, and this program is designed to help students succeed in these areas. Career options include, but are not limited to: financial data analyst, credit analyst, quantitative credit risk analyst, financial analyst, financial engineer, research analyst, risk and insurance analyst, market risk analyst, quantitative risk analyst, chief risk officer, risk management officer, risk management analyst, data scientist, data engineer, data modeler, and BI Analyst (business intelligence analyst).

Marketable Skills
Upon successful completion of the MS in Financial Technology and Analytics degree program, UT Dallas students will be able to employ the following skills in practice:

- Modify and apply robotic process agents to financial data collection and processing
- Build blockchains with smart contracts and cryptocurrency/tokens
- Apply machine learning techniques to data to solve financial problems
The University of Texas at Dallas

Naveen Jindal School of Management

About the School

The University of Texas at Dallas Naveen Jindal School of Management (JSOM) is the largest of UT Dallas’ eight schools, with an enrollment of about 9,000 with almost half who are graduate students. The school provides outstanding tuition value, a wide variety of classes on campus and online, flexible scheduling and a convenient location. The Jindal School of Management keeps abreast of business needs as an essential component in providing students with rigorous training and relevant skills for professional success. Programs are offered at the undergraduate, MBA, master’s, PhD and executive levels. Programs are organized around six broad topics of business specialization:

- Accounting
- Finance and Managerial Economics
- Information Systems
- Marketing
- Operations Management
- Organizations, Strategy and International Management

A broad array of internship and scholarship opportunities is made available to Jindal School students each academic year. The school operates its own Career Management Center, which students may use in addition to the campus-wide UT Dallas Career Center. More than 70 student organizations are based in the school. Most of these focus on career development in specific fields and build networking, internship and employment opportunities. U.S. News & World Report (2021) ranks the school’s Full-Time MBA program at No. 33 (tied) in the nation and tied for No. 12 (tied) among public university programs in the United States. In the same ranking, the publication places the Professional (Part-Time) MBA at No. 19 (tied) in the nation. jindal.utdallas.edu

Faculty

The Jindal School offers a variety of degree options at the undergraduate, graduate, master’s and PhD levels. The school’s relevant, rigorous curriculums were developed by exemplary teachers and leading researchers. The outstanding faculty members bring a wealth of intellectual capital, and they often come because UT Dallas enthusiastically encourages and supports scholarly inquiry and innovative teaching. New discoveries, along with faculty members’ expertise, inform the academic programs at every level.
