The Master of Science in Information Technology and Management (MS ITM) degree program consists of basic business courses, IT foundation courses, IT elective courses and other electives. The business courses give students a better understanding of issues that occur at the interface between IT and business. The IT foundation courses cover the essentials of IT. The IT elective courses provide in-depth knowledge of technology and technology management issues. In addition, students may select approved electives that maximize their goals.

The features that set the UT Dallas MS ITM program apart are the breadth and depth of the curriculum and its flexibility. The curriculum offers electives in relevant IT topics, and many of these courses are offered in the evening. Also, many courses are offered online to provide maximum flexibility. Since there is no difference in content between online and on-campus classes, students can mix online and on-campus courses to satisfy the degree requirements.

Program Description
The MS in Information Technology and Management requires the completion of a minimum of 36 semester credit hours. For complete admission and degree requirements, view the Graduate Catalog at [catalog.utdallas.edu](http://catalog.utdallas.edu).

For students who are unable to attend any on-campus classes, the program is available online.

The program also offers opportunities for students with special interests to concentrate in a specific track within the IT area, such as business intelligence and analytics, enterprise systems, cybersecurity management, digital product management, IT consulting and services management or healthcare systems.

This is a STEM-designated program.

Career Opportunities
Graduates of the program seek positions such as: IT manager, information systems analyst, and other IT positions in various industries.

Marketable Skills
Upon successful completion of the MS in Information Technology and Management degree program, UT Dallas students will identify, formulate, apply, and conduct or implement the following skills:

- Analyze and design Information Technology (IT) solutions to improve organizational operations.
- Develop and create Information Technology (IT) solutions to improve organizational operations.
- Manage people and processes in the design, delivery and use of Information Technology (IT) solutions.
The University of Texas at Dallas Naveen Jindal School of Management

About the School

The University of Texas at Dallas Naveen Jindal School of Management (JSOM) is the largest of UT Dallas’ eight schools, with an enrollment of about 9,000 with almost half who are graduate students. The school provides outstanding tuition value, a wide variety of classes on campus and online, flexible scheduling and a convenient location. The Jindal School of Management keeps abreast of business needs as an essential component in providing students with rigorous training and relevant skills for professional success. Programs are offered at the undergraduate, MBA, master’s, PhD and executive levels. Programs are organized around six broad topics of business specialization:

- Accounting
- Finance and Managerial Economics
- Information Systems
- Marketing
- Operations Management
- Organizations, Strategy and International Management

A broad array of internship and scholarship opportunities is made available to Jindal School students each academic year. The school operates its own Career Management Center, which students may use in addition to the campus-wide UT Dallas Career Center. More than 70 student organizations are based in the school. Most of these focus on career development in specific fields and build networking, internship and employment opportunities. U.S. News & World Report (2021) ranks the school’s Full-Time MBA program at No. 33 (tied) in the nation and tied for No. 12 (tied) among public university programs in the United States. In the same ranking, the publication places the Professional (Part-Time) MBA at No. 19 (tied) in the nation.
