

Naveen Jindal School of Management

Master of Science in Supply Chain Management

Supply chain management is the management of business activities from product development, sourcing, production and logistics to managing the resources and related capabilities the organization needs in the accomplishment of its strategic objectives.

The Master of Science in Supply Chain Management (MS SCM) degree program introduces students to current supply chain operating practices, analysis methods, technology, applications and strategy developments. It also provides students with advanced knowledge on how to identify, resolve and manage complex operational problems.

The MS SCM uniquely prepares students to be next-generation business leaders with skills and competencies necessary to perform across functions within an organization. The program has received a seal of approval from the Institute for Supply Management (ISM), the largest supply management association in the world.

Program Description

The MS in Supply Chain Management requires the completion of a minimum of 36 semester credit hours. For complete admission and degree requirements, view the Graduate Catalog at catalog.utdallas.edu.

For students who are unable to attend on-campus classes, the program is available online to engage students anywhere focusing on SCM.

Career Opportunities

Graduates of the program seek such positions as: supply chain manager/director, strategic sourcing manager/director, materials director, strategic planner and supplier management analyst.

Marketable Skills

Upon successful completion of the MS in Supply Chain Management degree program, UT Dallas students will understand how the success of a firm in today's global marketplace is dependent on the operations and strategies of its supply chain. Throughout the program, students will develop critical thinking skills necessary for the strategic management of supply chains such as:

- Collaborative supply chain management decision-making
- Communication, teamwork and leadership ability
- Create flexible, robust supply chain networks
- Employ sustainable supply chain management (SSCM) concepts
- Operations management-related problem solving
- Organizational improvement with quantitative methods
- Quantitative analysis of business situations

Naveen Jindal School of Management

About the School

The University of Texas at Dallas Naveen Jindal School of Management (JSOM) is the largest of UT Dallas’ eight schools, with an enrollment of about 9,000 with almost half who are graduate students. The school provides outstanding tuition value, a wide variety of classes on campus and online, flexible scheduling and a convenient location. The Jindal School of Management keeps abreast of business needs as an essential component in providing students with rigorous training and relevant skills for professional success. Programs are offered at the undergraduate, MBA, master’s, PhD and executive levels. Programs are organized around six broad topics of business specialization:

- Accounting
- Finance and Managerial Economics
- Information Systems
- Marketing
- Operations Management
- Organizations, Strategy and International Management

A broad array of internship and scholarship opportunities is made available to Jindal School students each academic year. The school operates its own Career Management Center, which students may use in addition to the campus-wide UT Dallas Career Center. More than 70 student organizations are based in the school. Most of these focus on career development in specific fields and build networking, internship and employment opportunities. *U.S. News & World Report* (2021) ranks the school’s Full-Time MBA program at No. 33 (tied) in the nation and tied for No. 12 (tied) among public university programs in the United States. In the same ranking, the publication places the Professional (Part-Time) MBA at No. 19 (tied) in the nation.

Faculty

The Jindal School offers a variety of degree options at the undergraduate, graduate, master’s and PhD levels. The school’s relevant, rigorous curriculums were developed by exemplary teachers and leading researchers. The outstanding faculty members bring a wealth of intellectual capital, and they often come because UT Dallas enthusiastically encourages and supports scholarly inquiry and innovative teaching. New discoveries, along with faculty members’ expertise, inform the academic programs at every level.
